To Whom It May Concern:

Dooley Construction commenced work on my residence approximately four years ago after a lengthy permit process. The house consists of 5,500 sq. ft. on two levels with a pool, three-car garage and guesthouse.

The architect was terminated midway through the design/permit phase. Mr. Dooley filled the void by providing an engineer and the local guidance to complete this phase and keep the project moving forward in a timely manner. Throughout the lengthy construction, Mr. Dooley worked with us to accommodate every request for changes that ultimately provided us with a home that exceeded our best expectation.

My wife is an interior designer and I have built numerous homes in Northern California. I understand better than most the issues associated with building. Mr. Dooley is one of the most reliable, honest and flexible contractors I have ever worked with. The quality of his construction is unquestionable. You will not find a more reputable contractor in the Florida Keys. Mr. Dooley can provide you with my telephone number if there are any questions I can answer.

Best Regards,

Bill Upson
