

We just completed a second project with Mike, Casey and their team and we would recommend them without reservation.

There are a couple of things that differentiate the Dooley Construction that we would highlight:

- Personnel: Their employees and subcontractors are knowledgeable, courteous and want the job done right
- Quality / Attention To Detail: They do high quality work and focus on the details
- Transparent Costing: Their cost plus approach gives you full visibility into their costs and eliminates the normal concerns about how a job is costed / priced
- Personal Touch: Our experience was that you felt like the team was treating your project like they were working on their own home

We were very pleased with the work done on our home...We would be happy to discuss our experience with the Dooley team with anyone who would like to talk to one of their customers.

Sincerely,

Pam and Bill Saxelby
